

TECHNOLOGY

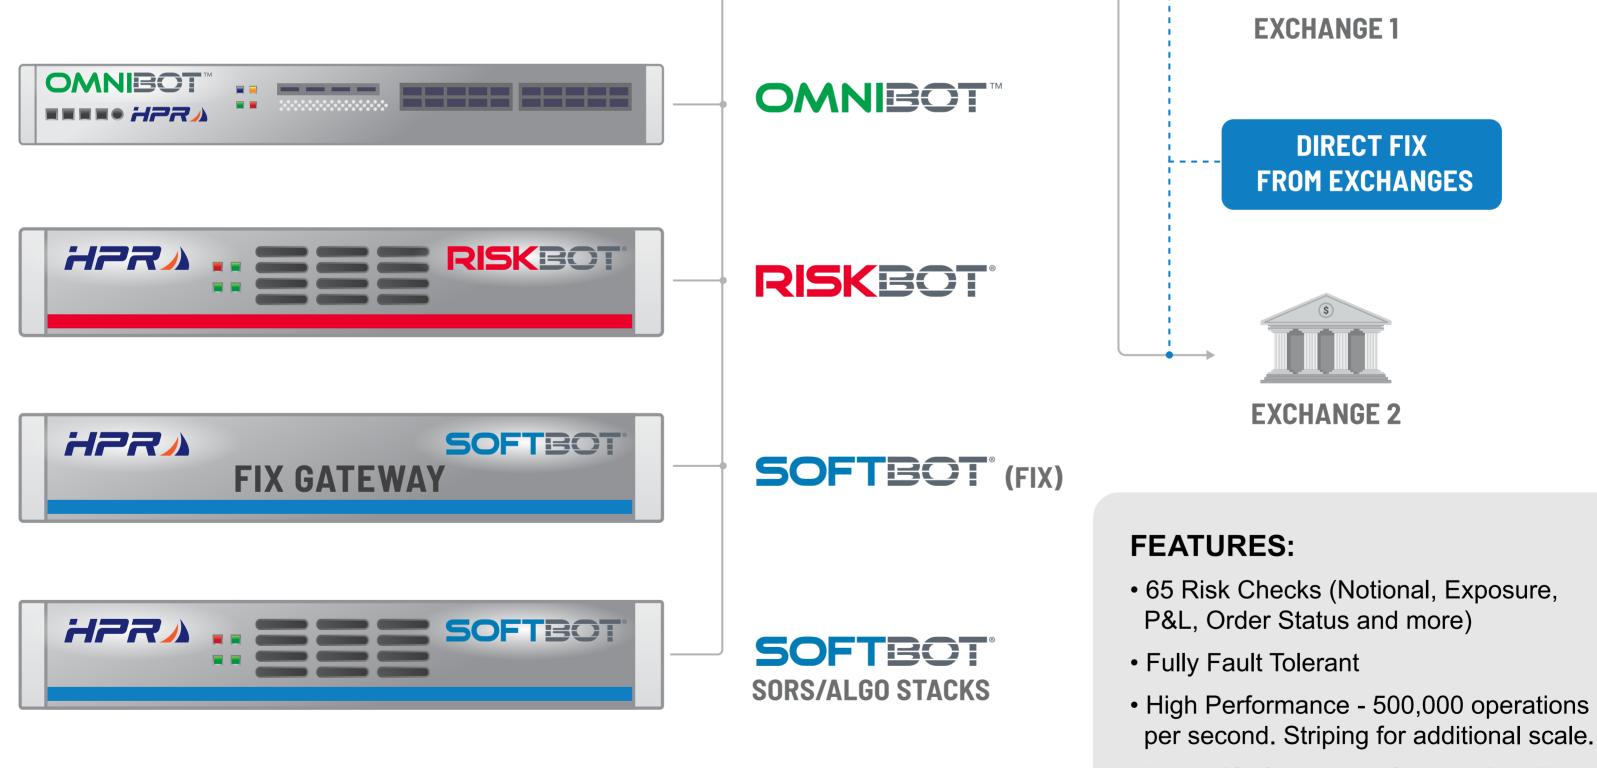

Brokers, quantitative funds, and money managers are increasingly looking to advanced risk management systems to allow them the most efficient use of capital. Similarly, clearing firms are beginning to adopt controls that allow them to measure risk in real time, reducing risk and increasing capital efficiency.

HPR's product line is comprehensive; supporting all use cases through our advanced enterprise stack. Whether you are a Prime Broker, Hedge Fund, or Clearing firm, HPR has the complete solution to suit your needs.

All Possible Deployments on a Single Enterprise Stack

- Parent/Child account Support (ex: Firm, Client, Desk)
- Run Stand-alone or Integrate with Existing Bank Infrastructure through API
